SUMMARY

Results-driven Computer Science student (GPA: 3.77) specializing in full-stack development (PHP, Laravel, MySQL) and competitive programming. Proven record of delivering scalable web applications, optimizing system performance, and achieving 1st place in national tech competitions. Experienced in peer mentoring, open-source contributions, and team collaboration, with strong expertise in algorithms, data structures, and modern software technologies. Recognized for adaptability, problem-solving, communication, leadership, and time management in high-pressure environments. Interested in cloud technologies, scalable systems, and applying AI to solve real-world problems.

EDUCATION

Banha University (BFCAI) <i>Bachelor in Computer Science</i>	Expected 2027
--	---------------

PROJECTS

HireMe – AI-Powered Job Board Laravel 12, Tailwind CSS, MySQL, Docker	June 2025 – August 2025
– Developed a full-stack job board with AI-powered resume feedback, RBAC/OBAC system, automated email/notification system, and analytics dashboard for employers.	
– Served 50+ active users during testing with 90% user satisfaction rate . [View on GitHub]	
Food Order Website PHP, MySQL, JavaScript	August 2024 – September 2024
– Built order management platform handling 100+ simulated transactions daily .	
– Improved order processing efficiency by 25% through optimized queries. [View on GitHub]	
Library Management System Java	December 2024
– Implemented CRUD operations to manage 1,000+ book records .	
– Reduced manual tracking errors by 40% using automated due-date system. [View on GitHub]	

TECHNICAL SKILLS

Programming Languages: C++, PHP, Python, Java, SQL

Frameworks: Laravel, Bootstrap, Tailwind CSS

Databases: MySQL, SQL Server

Core Concepts: OOP, MVC, DSA, System Design, Algorithms, Data Structures

Tools: Git, Docker, VS Code, phpMyAdmin

Competitive Programming: Solved 700+ problems (Codeforces, LeetCode, HackerRank)

EXTRA-CURRICULAR ACTIVITIES & ACHIEVEMENTS

Participant <i>ECPC Qualifications</i>	August 2025
– Solved advanced algorithmic problems collaboratively under timed conditions, achieving top 10% rank through strong problem-solving and collaboration.	
1st Place Winner <i>GDSC Bootcamp, Benha University</i>	January 2024
– Directed a team of 4 to build a web app, securing 1st place among 25 teams .	
– Implemented interactive features that boosted usability ratings by 30% and enhanced teamwork efficiency.	
Technical Judge (Volunteer Role) <i>Codeavour International</i>	February 2024
– Evaluated 25+ AI/ML projects , improving team scores by 15% and providing constructive feedback with clear communication.	
– Reviewed code quality and scalability, ensuring adherence to best practices while mentoring participants.	

CERTIFICATIONS & AWARDS

[View Certificate] ECPC Qualifications Participation (2025)	
[View Certificate] Database-level-1-SQL-concepts-and-practice (2025)	
[View Certificate] Laravel Framework (Udemy) (2025)
