SUMMARY

Computer Science student at Benha University (CGPA 3.8/4.0, graduating June 2027) focused on backend development with C# and .NET. Currently completing the .NET Diploma at Route, working with OOP, LINQ and Entity Framework Core. Previously built REST APIs and full web applications with PHP, Laravel and MySQL, including a production platform deployed on Microsoft Azure and an AI-powered job board. Solved 1,000+ algorithmic problems; top 10% nationally at ECPC 2025.

EDUCATION

Benha University | Faculty of Computers & Artificial Intelligence **Expected Jun 2027**
B.Sc. Computer Science CGPA: **3.8 / 4.0**
Current Coursework: Cloud Computing, Machine Learning, Image Processing, Network Security, Mobile Application Development
Key Courses: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Operating Systems, System Design, Artificial Intelligence

Route Academy | .NET Diploma **2026 – Present**
Hands-on track in C#, OOP, advanced C#, LINQ and Entity Framework Core, with weekly graded assignments.

TECHNICAL SKILLS

.NET & C#	C#, .NET, Entity Framework Core, LINQ, Fluent API, Code-First Migrations, Object-Oriented Design
Backend & APIs	REST APIs, MVC, Layered Architecture, Authentication & RBAC, PHP & Laravel (previous experience)
Languages	C#, Java, C++, Python, SQL, PHP, JavaScript
Databases	SQL Server, MySQL, ER Design & Normalization, Complex Queries, Indexing, Stored Procedures
Cloud & DevOps	Microsoft Azure, Linux, Docker, Git, GitHub, CI/CD Basics
AI & Data	Machine Learning, Image Processing, NLP, Generative AI & LLM APIs
Core CS & Design	Data Structures & Algorithms, OOP, SOLID Principles, Design Patterns, System Design, Clean Code
Frontend	HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, PWA

PROJECTS

Learning Platform – EF Core & SQL Server Data Layer **2026 | GitHub**
C# | .NET 9 | Entity Framework Core 9 | SQL Server | LINQ | Code-First Migrations
- Designed a relational model for students, courses, instructors and nested categories (self-referencing hierarchy), with a many-to-many enrollment entity tracking progress, status and grades; configured with the Fluent API (composite keys, delete behaviors, decimal precision).
- Managed the SQL Server schema with code-first migrations and seed data, and implemented async CRUD with LINQ filtering, sorting and projections, plus bulk updates and deletes using `ExecuteUpdate` / `ExecuteDelete`.

Empapy Caffe – Production Cloud Platform **2026 | GitHub**
Laravel 11 | PHP 8.2 | MySQL | REST APIs | Microsoft Azure | Linux | PWA | Firebase FCM
- Architected a layered MVC backend exposing REST APIs over a normalized relational schema of 22+ tables.
- Built transactional flows for loyalty rewards, Kanban order management and real-time analytics, with Firebase push notifications.
- Deployed and operated the platform on a Microsoft Azure Linux VM serving real users in production, with an A+ security rating.

HireMe – AI-Powered Job Board **Jun – Aug 2025 | GitHub**
Laravel 12 | MySQL | Docker | Tailwind CSS | REST APIs | AI/NLP API Integration
- Integrated an AI/NLP API to parse resumes, generate feedback and score candidates against job descriptions.
- Built REST APIs with role-based access control (RBAC/OBAC), an analytics dashboard and email alerts; containerized with Docker.

Library Management System – Java Application **Dec 2024 | GitHub**
Java | OOP | SOLID | Design Patterns | Data Structures
- Applied OOP, SOLID and design patterns so new item types and rules can be added without modifying existing classes.
- Implemented borrowing, due-date tracking, returns and real-time inventory management using Java collections.

COMPETITIVE PROGRAMMING

- Solved 1,000+ problems on Codeforces, LeetCode & HackerRank (dynamic programming, graphs, number theory).
- ECPC Qualifications 2025 – Top 10% nationally; collaborated under timed, high-pressure team conditions.

LEADERSHIP & AWARDS

- **Team Lead, 1st Place – GDSC Bootcamp** (Jan 2024): Led a 4-member team to 1st place out of 25 teams.
- **Technical Judge – Codeavour International** (Feb 2024): Evaluated and scored 25+ international AI/ML projects.
- **Certifications:** Database / SQL (2025) | Laravel – Udemy (2025)
